

PRESS RELEASE

December 22, 2021

For Immediate Release

Grand Opening: Town of Cave Creek Fire Department

Cave Creek, AZ— On January 3rd from 7:30am – 11:00am the public is welcome to join the Town of Cave Creek, in conjunction with Daisy Mountain Fire & Medical, as we celebrate the launch of the new Town of Cave Creek Fire Department. At 8:00am the first call from dispatch will officially welcome these resources to the community.

As most in the region know, there were two back-to-back major wildland fire events in May of 2020. Following these events, neighboring jurisdictions encouraged the Town of Cave Creek to increase fire protection and services within Town limits.

At a Regular Council Meeting on August 16th, 2021, the Town of Cave Creek Council Members voted in favor of obtaining the property located at 37042 N. Cave Creek Rd., to be used as the Town's fire station. This was part of a collective effort to work with the community in securing an all-hazard emergency service, in pursuit of joining the Regional Automatic Aid System.

Graduation for 11 new Daisy Mountain firefighters to help staff this facility took place on Friday, November 9th. On December 6th the Town entered into a long-term agreement with Daisy Mountain District to provide these emergency services for the future.

The Town of Cave Creek and Daisy Mountain Fire & Medical Department are proud to announce the grand opening of Cave Creek Station #1 / Daisy Mountain Fire Station #147 to take place on January 3rd, 2022. The public is welcome to attend from 7:30am – 11:00am to join in the celebration of this momentous occasion for Cave Creek.

Residents can visit Town Hall or the website for a letter for your insurance providers regarding these changes. For more information see *News and Announcements* on the Town's website: www.CaveCreekAZ.gov.
